EXAMINER STATEMENT OF REASONS FOR ALLOWANCE

1. This communication is an Examiner's reasons for allowance in response to application filed on 10/31/00, assigned serial 09/703481 and title "Positioning Applications For An Electronic Reading Device".

2. The following is the Examiner's statement of reasons for the indication of allowable subject matter:

After carefully reviewing the application and the additional search of all the possible areas relevant to the present application, a set of related prior art references has been found, but those prior art references are not deemed strong to make the application unpatentable. Thus, it is found that the application is now in condition for allowance.

Although the references found disclose several claimed limitations, none of the references discloses a system and method for retrieving position-related information, comprising: an address pattern comprising a pattern of dots, wherein each specific geographical location within the geographical area is associated with a unique portion of the address pattern and can be identified from the associated unique portion of the address pattern, an electronic reading device for detecting a portion of the address pattern, and sending an indication of the selected position from the electronic reading device to a server, and identifying a geographical location within geographical area that corresponds to the selected position (claims 1 and 14). Also, none of the references found, the server sends information relating to the specific geographical location to the electronic device, the information sent by the server comprises a route description from the original location to the destination location, also, the information sent by the server comprises at least one of a distance and direction from the origination location to the destination location, and

Art Unit: 3661

the information further comprises a suggested form of transport (claims 3, and 8-10). None of the reference found, the electronic reading device optically detects a plurality of positions on the address pattern, plurality of positions corresponding to a selected area, the server sending information relating to facilities within the selected area (claim 13).

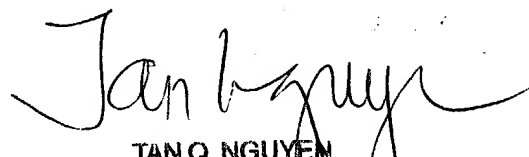

Claims 1-26, are allowable over the prior art of record.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dalena Tran whose telephone number is 703-308-8223. The examiner can normally be reached on M-F (7:30 AM-5:30 PM), off every other Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Black can be reached on 703-305-8233. The fax phone numbers for the organization where this application or proceeding is assigned are 703-305-7687 for regular communications and 703-305-7687 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-1113.
